

23 November 1962

**MEMORANDUM FOR THE DIRECTOR**

1. In moving Bud Wheelon and his family and household goods to Washington, the Agency took care of the expenses for shipment of household goods in a completely legal and administratively correct manner for the total amount with the exception of \$163. There is no legal way in which this excess amount can be paid by the Agency. I have disapproved the use of covert funds for this action, which means that Bud is out-of-pocket in that amount because of exceeding the total allowances for weight of his effects.

2. I tell you this only because of my understanding that you had made an implied commitment, in signing Bud up, that the Agency would pay all expenses of his movement.
